We will photograph Boiling Springs highlighted by a local craft fair, nearby villages with interesting history, architecture, rolling farmland and local personalities.

We will explore the subtleties of photographing people and the land, and learn the art of photographing with natural light while learning to see with the camera.

We will also learn how to put images together to tell a story.

Slide shows, group and individual critiques will be held. This workshop is for the photographer who is comfortable with basic camera techniques and is ready to discover a variety of subject matter.

Quick Tips!

Move in Closer!

Each time you spot a subject, snap a shot and then move in closer for a better shot. Having your subject almost fill the frame helps your viewer understand and appreciate your photo. Also, details are often more interesting than an overall view.
